COVID-19 Guidance for Tennis Players

during Phase 2 of the Roadmap for Reopening Society

8th June 2020

Version 2

Updated 5th June 2020

Phase 2

Return to Restricted Play Always follow the Government Guidelines of Good Hand Hygiene – Respiratory Etiquette – Social Distancing

The guidelines in this document relate to Phase 2 of the Irish Government's Roadmap for Reopening Society and Business.

These measures are part of the second phase of lifting the public health restrictions that were put in place to protect us all from COVID-19. They come into effect on top of the measures in phase 1.

The Phase 2 measures will come into effect from June 8th, but only if the National Public Health Emergency Team says that the conditions are right for a further relaxation of the restrictions in place to protect us all.

This phase:

- Permits people to engage in outdoor sporting and fitness activities, involving small group team sports training (but not matches) where social distancing can be maintained and where there is no contact.

This practical guide, prepared by our team in consultation with international norms and medical experts, outlines the robust measures Tennis Ireland would like clubs to implement and coaches and players maintain to help safeguard staff and members during the COVID-19 pandemic.

Our measures and procedures are under constant review and updated as advice from government, health authorities and governing bodies evolves in line with the gradual lifting of social restrictions.

These measures should be in place seven days a week and until further notice.

Our measures and procedures are under constant review and updated as advice from government, health authorities and governing bodies evolves in line with the gradual lifting of social restrictions.

Before you Play

You must stay at home if you:

- Have been in contact with someone with COVID-19 in the last 14 days
- Have been overseas or exposed to someone with COVID-19 in the last 14 days
- Have flu-like symptoms or are feeling unwell
- Live outside the county in which your club is located.

You should:

- Find out what protocols are in place at the club
- Ensure your club has up-to-date contact details for you

Attending Tennis Activities

- Pre book your court online or via phone
- Only people core to playing should attend tennis activities such as players, participants, coaches and operational personnel
- Arrive and leave as close as possible to when you are due on court
- A parent/guardian should accompany any player under 18 years. For casual play, Clubs have discretion to remove this requirement for junior players aged 16 years and over if they so choose.
- Players can only play singles in this phase of reopening, the exception for doubles being if a playing partner is from the same household.

- Players should arrive ready to play as their will be no access to dressing rooms during this phase
- Players should utilise toilet facilities in their own home prior to arriving at the club, however, toilet facilities may be available at a club during this phase, subject to cleaning protocols being implemented by the club
- Players should, ideally, bring a small bottle of hand sanitiser with them and keep it in their pocket of bag for use.

Social Distancing Behaviours

To protect against infection:

- Players must refrain from handshakes and high fives
- Keep 2 metres away from other people at all times
- Do not share food, towels and drinks
- Wash your hands frequently with soap and water or hand-sanitiser when available, before and after eating, after going to the toilet, sneezing and coughing
- Cover your coughs and sneezes and dispose of any used tissue in your own bag and bring it home with you
- Avoid touching your face
- Keep your distance from people who are obviously sick
- Try not to touch any surfaces, but if you do sanitise your hands as soon as possible
- Change ends at opposite sides of the net. If this is not possible then do not change ends.
- For singles play, use two sets of clearly marked tennis balls. These should be alternated for serving with each player only touching their individual tennis balls.
- Use your racquet / foot to pick up balls and hit them to your opponent. Avoid using your hands to pick up the balls.
- Remain apart from other players when taking a break.
- If a ball from another court comes across, send it back with a kick or with a racquet.

When Play Finishes

- Once play has finished, players should leave the club promptly
- Hands should be washed and sanitised as soon as possible
- Ensure equipment is cleaned thoroughly after use. Tennis balls can be sprayed with a disinfectant
- If a player becomes unwell after playing, they should first contact their GP/HSE and then inform their club. The club will then follow advice provided to them by the HSE on the next steps
- Members should be encouraged to remind other members of the guidelines, in a gentle way, when they witness poor practices. Repeated poor practice should be reported to the club as soon as possible

Tennis Balls

- Practice caution with the Tennis Balls
- Although there is no specific evidence that tennis balls can spread COVID-19, we know that contamination from respiratory droplets from an infected person can potentially survive on hard surfaces for up to three days.
- Replace balls if someone suspected of having COVID 19 comes in contact with them
- Consider spraying balls with a disinfectant spray at the conclusion of play. Using new balls on a regular basis is encouraged.
